**Art**
Draw and color a fruit or vegetable that matches the color next to it. See the first example.

What’s your favorite fruit and vegetable?

**Play**
Make a snack with your family and try to include at least 3 of the colors below!

The colorful mural covers the walls on two floors of the Museum, consisting of 58 colors representing 58 different fruits and vegetables that are commonly found in grocery stores and farmers markets. Channel your inner graphic designer and match shades of a vitamin-rich meal to the pantone® colors.
