

Log On To Keep Learning

With shelter-in-place orders still in effect at press time, a number of local organizations have created online programs and offerings to keep minds both young and young at heart engaged.

The New Children's Museum's #thinkplaycreatefromhome initiative offers creative resources including a blog with hands-on DIY activities, behind-the-scenes action, and more. Visitors to the website can also download and print coloring pages of the museum's many installations. In addition, every Friday at 10am, "Friday Toddler Time" features programming tailored to little developing minds, while "True Tuesdays" offer live Zoom talks on topics for caregivers every Tuesday at 3pm. The Lawrence Family Jewish Community Center, Jacobs Family Campus has adjusted to our new virtual reality by finding innovative ways to keep its members and patrons engaged. With its "J Virtual Experience," the organization brings community experiences home via an impressive array of online programs, from fitness classes, artist discussions, and early childhood education to programming for seniors, Zoom discussions in partnership with the San Diego International Jewish Film Festival, and much more. lfjcc.org/virtual MIA S.
